

# USC Wireless Quick Guide

## USC @ SouthBank

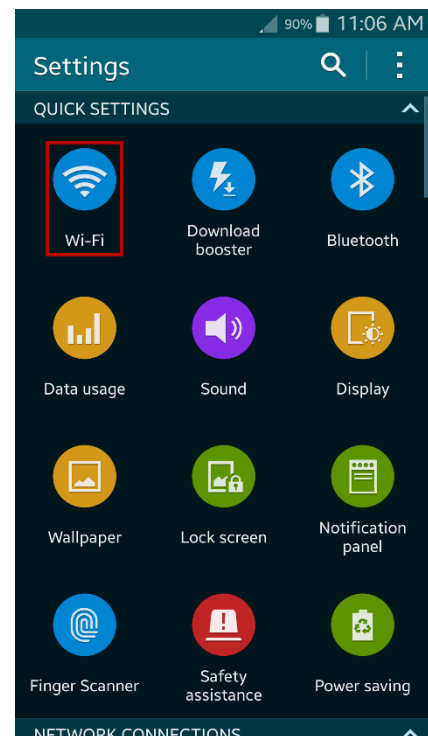

### Connecting your Android device

This guide will take you step-by-step through the process of connecting your **Android** device to the USC @ SouthBank wireless network at USC's SouthBank Campus. Simply follow the instructions below:

- 1 Select "**Settings**" from your Android home screen or from "**Apps**" if it is not on your home screen.

- 2 Select "**Wi-Fi**" from the "**Settings**" menu.

## USC @ SouthBank

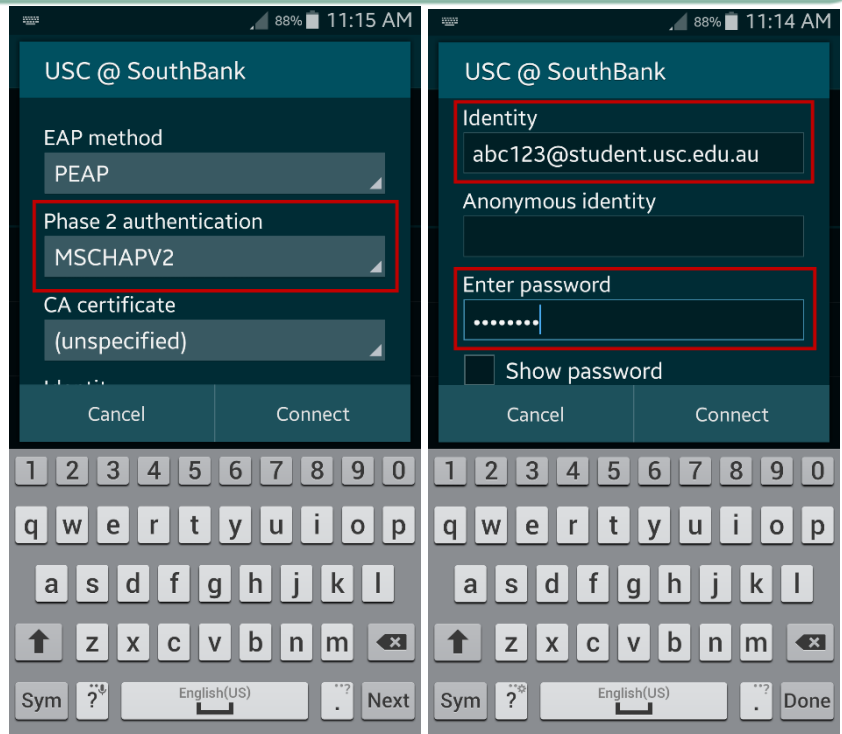

- 3 Ensure that **“Wi-Fi”** is enabled (using the switch icon on the top of the screen) and then press **“USC @ SouthBank”** from the list of **“Wi-Fi NETWORKS”**.

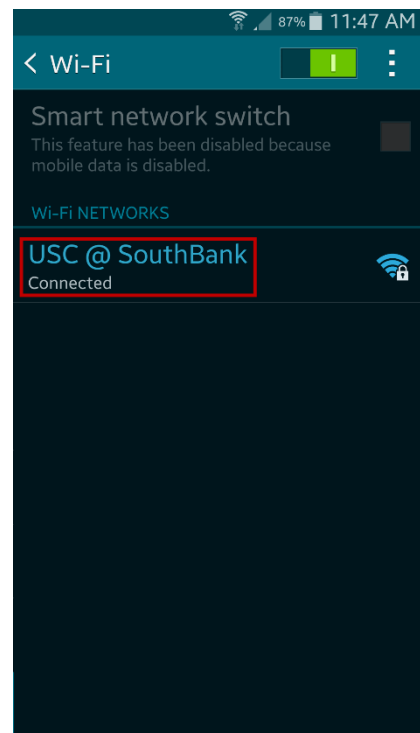

## USC @ SouthBank

- 4 In the USC @ SouthBank settings screen that appears, change “**Phase 2 Authentication**” to **MSCHAPV2**. Lower on the same screen, enter your full **USC email address** in the Identity field and your **password** in the “Enter password” field (the anonymous identity field remains blank) then press connect.

- 5 Your device **should now connect** to the USC @ SouthBank network and you should now be able to browse the internet and use apps.

If your device was connected to USC @ SouthBank previously and will no longer connect, you will need to modify the settings or remove the settings entirely and start again.

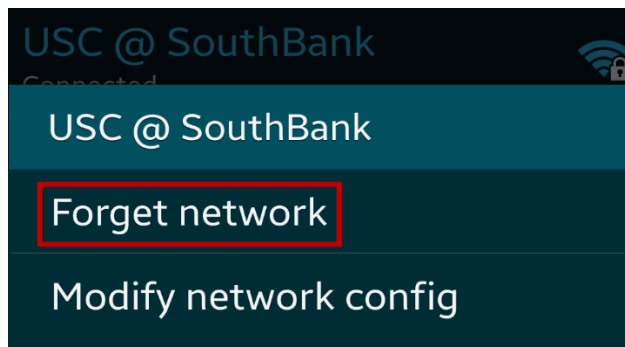

- 6
