

Connecting your Windows phone 8 device

This guide will take you step-by-step through the process of connecting your **Windows phone 8** device to the USC @ SouthBank wireless network at USC. Simply follow the instructions below:

- 1 Select **“Settings”** from your home screen (it’s the cog icon). If it’s not on your home screen, **swipe left** to bring up your programs and **swipe down** until you see **“Settings”**.

- 2 Select **“Wi-Fi”** from the **“Settings”** menu.

- 3 Ensure that **“Wi-Fi”** is enabled (using the switch icon on the top of the screen) and then press **“USC @ SouthBank”** from the list of **“Available WiFi networks”**.

USC @ SouthBank

- 4 In the USC @ SouthBank settings screen that appears, “**Connect using**” should be set to username and password.

In the username field enter enter in your **full USC email address** (username@student.usc.edu.au for students and username@usc.edu.au for staff) and then enter your current password in the password field.

“**Server certificate validation**” remains set to **none**.

The **EAP method** needs to be set to **PEAP MS-CHAP v2**.

Now press **done**.

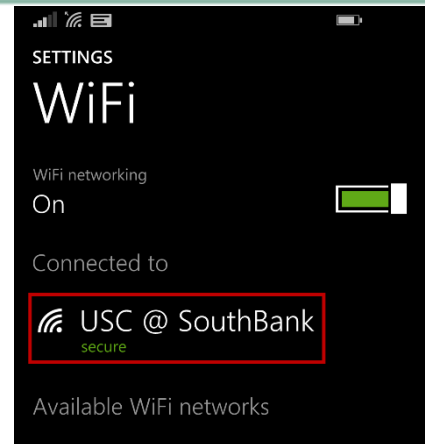

- 5 Your device might now ask you to accept a certificate and connect. This certificate should be labelled as **lsp-ise01.usc.internal** and is safe to accept.

USC Wireless Quick Guide

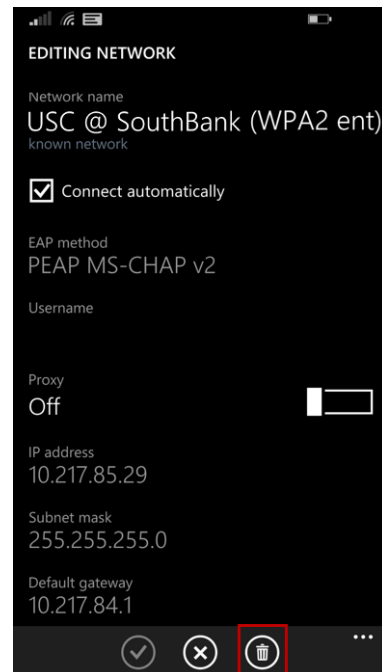

USC @ SouthBank

- 6 Your device **should now connect** to the USC @ SouthBank network and you should now be able to browse the internet and use apps.

If your device was connected to USC @ SouthBank previously and will no longer connect, you will need to modify the settings or remove the settings entirely and start again.

- 7 To do this, select the USC @ SouthBank network and select **“Recycle / delete icon”** found on the bottom right of the screen.

Please note: If your device does not connect after following these steps please contact the Student IT Help Desk if you are a student, or the Staff IT Service Desk if you are a member of staff.
